

BURMA - SHAVE PROJECT

Do you have what it takes to be a Burma - Shave person ?

All it takes is an idea, an attitude and the opportunity. Remember the Burma-Shave signs of 50 years ago? Join this project based on the Guns Save Lives Illinois project at <http://www.gunssavelife.com/burma.htm>

NEEDED; Private land along a well traveled road to place 4 to 6 message signs. Some samples are below. Some are original to Maryland, some borrowed from Guns Save Lives.

**GUNS ARE NEITHER

DEPENDS ON PEOPLE

Here's the plan,
Just find us some land,
Then we'll set messages so clear,
That Maryland residents will throw off their fear.

There are a few hoops,
that we have to keep in sight,
but the message of freedom,
Is a constitutional right.

So come all ye' faithful,
gun owners so true,
join in this project,
the benefits are you!

A farm adjoining a road for 200 yards is enough space to place 4 to 6 short message signs which will be easily read by those passing. It is legal to set a political free speech message on private land. The only catch is to first contact "Miss Utility" to make sure it is safe to dig. It would also be helpful if the land were fenced to clearly define the private land and deter vandals. Then for a small cost, donated by others, and a days time the signs are set and the message gets out. Several signs will get press reporting and will encourage other gun owners to climb "out of the closet" and get active and join in our common fight.

Do you have the land, or know someone who does? Can you help in any way?
